## **Project Development Phase Model Performance Test**

Date	20 October 2023
Team ID	NM2023TMID06853
Project Name	Subscribers Galore: Exploring the World's
	TopYouTube Channels
Maximum Marks	10 Marks

## **Model Performance Testing:**

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	No of Visualizations / Graphs – we have created 8 visualizations
2.	Data Responsiveness	It ensures that users can access and retrieve data promptly, which is essential for timely decision-making and user satisfaction. Factors like data update frequency and real-time availability contribute to data responsiveness. In today's fast-paced digital landscape, data responsiveness is crucial for staying competitive and making informed choices.
3.	Amount Data to Rendered (DB2 Metrics)	Subscribers Galore: Exploring the World's Top YouTube Channels" dataset can vary depending on the specific query, but on average, it may involve rendering several gigabytes of data for in-depth analysis.
4.	Utilization of Data Filters	Reduced the amount of dataset to minimize the analysis phase and to provide the target solution to our problem statement
5.	Effective User Story	No of Scene Added -8
6.	Descriptive Reports	No of Visulizations / Graphs -4
